[Docket No. CP99-625-000]

Columbia Gas Transmission Corporation; Notice of Application

October 6, 1999.

Take notice that on September 27, 1999, Columbia Gas Transmission Corporation (Columbia), Post Office Box 1273, Charleston, West Virginia 25325-1273 in Docket No. CP99-625-000 an application, as supplemented on September 28, 1999, pursuant to Section 7(c) of the Natural Gas Act to permit Columbia to use firm capacity on Tennessee Gas Pipeline Company (Tennessee), all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may be viewed on the web at <http://www.ferc.us/online/rims.htm> (call 202-208-2222).

Columbia proposes to use firm capacity on Tennessee of up to 16,476 dt per day from Broad Run, Kanawha County, West Virginia, to Highland, Elk County, Pennsylvania, for a period beginning October 1, 1999, and ending March 31, 2000. Columbia indicates that, as a result of corrosion revealed by recently completed and analyzed in-line inspection of two line segments on Columbia's system in Clinton and McKean Counties, Pennsylvania, Columbia has elected to remove the two pipelines from service prior to October 1, 1999. To find an alternate means of maintaining capacity to serve its contractual obligations during the 1999-2000 winter heating season, Columbia indicates that it has arranged to use capacity on Tennessee's system. Columbia indicates that, because it needs to maintain normal operating pressures on those pipelines to meet its service obligations, it cannot reduce its line pressure on those facilities as a long term option. Columbia also states that it has not had sufficient time to complete the analysis of the two pipelines to determine if the pipelines or segments of the pipelines may have to be replaced or abandoned.

Columbia states that no construction of facilities is required to implement the transaction. It is stated that the total cost of the transaction will be between \$600,000 and \$650,000, which will be accounted for pursuant to the provisions of its tariff concerning Transportation Cost Recovery Adjustment Filings.

Any person desiring to be heard or to make any protest with reference to said application should on or before October 27, 1999, file with the Federal Energy

Regulatory Commission, Washington, D.C. 20426, a motion to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a motion to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission or its designee on this application if no motion to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission for abandonment are required by the public convenience and necessity. If a motion for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Columbia to appear or be represented at the hearing.

Linwood A. Watson, Jr.,

Acting Secretary.
